### THIS PRESENTATION:

- Learn how to comfortably discuss concerns about the cost of long-term care with your patients and clients who may become dependent on others to meet their needs.
- Learn how to help them avoid the crisis of guardianship with the use of important legal tools such as a power of attorney, healthcare proxy, and living will.
- Learn how to facilitate the process of executing these Advanced Directives.
- Ensuring the legal and financial safety of your patients and clients is essential to everyone's peace of mind and quality of life, yet these issues are not as difficult or complicated to address as you think. Dan Fish will lead us through it all step-by-step, simplifying the process.
